## ABOUT

Pepavana is Pepa van Asperen, a Rotterdam based designer with an everlasting & innovative collection of handmade accessories. She gives new meaning to classic items from her own background (bargeman's child) and surroundings by re-shaping them into contemporary pieces. She turned old fashioned items like gaiters into an edgy and exclusive accessory for high heels: Pepavanas.

## PRESENTATION

The models from the Continuous Collection are named after female icons that could have worn Pepavanas in their era, executed in 100% naturel woolfelt (blond, brown and black melanges). We show Jane, Monica & Edie.

The new model showed for the first time is a Black 'n Blond one: HARMONY. She represents our need for unity and brotherhood. The Sixties twist of the design is perfectly in line with the former models.

Alongside 3 bags.

In her designs Pepavana creates tension by exploring borders in comfort and functionality. With the NEW POCKET BAG Pepavana invented new ways of storing your belongings as seen before in the O-bag and the NEW SHOE BAG. The MINI SHOPPER BAG that finds its origin in a small handmade cloth bag that was commonly used her family is now transformed in to an elegant ladies bag.
